

## Faecal Occult Blood Test

**Your Doctor has asked you to collect a sample of your faeces (poo) on 3 days for Pathology testing.**

Open the **brown topped container**.

Use the scoop to place a small amount of faeces in the container provided.

Close the lid tightly.

Write your full name, date of birth, the date and time of the collection on each container.

Close the lid on the container tightly.

Do this once a day for 3 days.

Do not perform this collection if you have visible blood in your faeces or urine.

Each day (if you can) take the container and your request form to an Austin Pathology Collection Centre.
