

24 Hour Urine Collection

Your Doctor has asked you to collect a urine (wee) specimen for 24 hours for Pathology testing.

CAUTION: Some collection bottles contain an acid.
Please take care not to spill the contents of the bottle.

When you wake up in the morning urinate into the toilet.
At this time write the **start date and time** on the collection bottle.

For the rest of the day and night please collect all urine into the bottle.

Keep the bottle in a cool dry place.

When you wake up the next morning collect your urine into the bottle for the last time.

Close the lid on the container tightly.

Write the **finish date and time** on the collection bottle.

Write your full name and date of birth on the container.

When finished, take the container and your request form to an Austin Pathology Collection Centre.

Note: Some 24 hour urine tests may also require you to have a blood test.
