

Your Doctor has asked you to collect 2 faecal (poo) specimens for Pathology testing.

CAUTION: The container with the yellow top has a liquid preservative which is harmful.

Please do not spill or empty the container.

Open the **yellow topped container** carefully.

Use the spoon attached to the lid to place a small amount of faeces in the container provided and fill to the black arrow.

Close the lid tightly and shake the container to mix the contents.

Open the **brown topped container**.

Use the scoop to place a small amount of faeces in the container provided.

Close the lid tightly.

Write your name, date of birth, date and time of collection on the containers.

When finished, take the container and your request form to an Austin Pathology Collection Centre.
