

Your Doctor has asked you to collect 3 urine specimens for Pathology testing.

When you wake up in the morning urinate into the toilet.

The next time you need to go to the toilet void into a clean yellow topped container.

Close the lid on the containers tightly.

Do this every morning for 3 days.

Write your full name, date of birth and the time and date of the collection on each container.

Store the containers in the fridge.

When finished, take the containers and your request form to an Austin Pathology Collection Centre.
